

HOPE - Helping Opportunities for Personal and Employment Issues

As a career counsellor and psychotherapist, I have worked for over 30 years with a multitude of people who struggle with poverty and mental illness.

My Vision:

* To set up programs that help people acquire resolution to issues in their lives and help them realise their dreams.

* To be a whole approach using many different modalities; including services such as alternative health care, counselling and psychotherapeutic support, spiritual (non religious) support, creative expressions and career counselling/job development in a supportive environment.

50% of bottle profits go towards subsidizing this vision.

It was a challenge to find a water bottle that lived up to my values and standards.

Everything leached something! It took me over a year to source **this perfect glass bottle**. After finding it, others expressed interest, so I took it a step further. I then designed the cover and put together a business plan.

Creating Healthy Communities!

Thank you for your support!

Marsaye

TO DATE:

We have subsidized Psychotherapy, Job Development Career Counselling and Chiropractic care.

The Future:

To subsidize more of the above as well as Naturopathic, Homeopathic, Energy Work, Meditation, And of course... a fundraiser for organizations supporting mental health clients.

A Social Purpose Business providing a subsidy program for people struggling with mental health and poverty

You can help support this program by purchasing this bottle

'The YOGA of BOTTLES'

With its unique quality quartz, drinking liquid from this bottle, enhances your energy and helps bring you into balance

Keeps hot and cold longer

Developed locally in Guelph, ON

RUGGED

PURE

INNOVATIVE

www.hopestream.ca

519-823-9333

Rugged

- * Boron content strengthens glass
- * Highly durable to being dropped and very durable to temperatures
- * **Cover** protects and insulates liquids to retain hot/cold longer and is washing machine friendly
- * **Cap** and gasket ring are BPA free; containing plasticizers so low they would have to soak in acid for hours for any leachate to occur - according to the Guelph/Wellington Health Unit
- * Holds any hot, cold or acidic drink and remains leachate free

Pure and Eco Friendly

- * Czech quality quartz
- * Made in highest standards of eco friendliness
- * Easily handles boiling hot and freezing cold or acidic liquids

Innovation

- * Strap = hands-free movement
- * Two lengths available
- * Social purpose business
- * 50% of profits go to people with poverty and mental health challenges to obtain alternative health care and counselling.

Microwave and Dishwasher safe

(remove cap for microwave to reduce pressure)

Here's what people have to say...

I love these Bottles! I won't drink from any other bottles. They're the purest!

Says Dr. Michael Dragoman,
Chiropractor

"I was on a 30 foot scaffold and dropped my bottle – only the cap broke!" Says Chris Williams (CEO of Guelph Water Festival)

I've dropped it numerous times – even on cement and it hasn't broken. Says Helen Griffin, Trainer

Beautiful Bottle!

Says Duane Swynarchuck,
Prism Healing Director

Easy to clean and made of such safe materials, this is a bottle perfect for more than water, also for smoothies, favourite (hot or cold) herbal teas, vegetable or fruit juice... any favourite drink!" says Joanne Tofflemire, Volunteer

"Most PRISTINE, BEST GLASS BOTTLE; Purest, Strongest and least breakable glass bottle out there!

Says Susan Wood, Psychotherapist

Investing in HOPE

HOPE Stream is a social purpose business whose mission is consistent with providing the safest and cleanest bottle possible. This is aligned with the goal of healthy communities.
